CALL TO ACTION

- Implement & enforce **eye protection** where eye hazards eg. work sites
- Enforce prescription of shatter-resistant **polycarbonate lenses** for children, one-eyed patients, at risk individuals
- Eye care professionals to preach and practice **preventive ophthalmology**
- Institutions and medical centres to provide **optimal primary and secondary eye trauma management through dedicated ophthalmic trauma units.**
- National and regional ophthalmologic (including subspecialty) societies to work together in coordination
- Govt. and non-govt. organisations(NGOs) **adopt and enforce policy with constant supervision.**
